Happy days are here again.

"Grrrr . . ."

Washday at the schoolhouse.

What goes on behind the curtain?

I don't know nothing to say that I haven't already said. I have known you every since the 2nd grade and I have never met a girl quite like you. You really are different from the rest of the girls and I like you better than any girl I have ever liked. I don't know why I like you better but there's something about you that makes me feel different. Ever since I laid eyes on you I've liked you. I really can't tell you why, I don't know. I really had a lot of fun this year going to the ballgames with you I hope you had fun too. Do you still remember the night we played Graham. That was some night especially on the pep bus coming back. I hope you never change from the way you are now. You taught me a good lesson on getting mad real easy. I haven't been real mad since then and I probably wont get mad around you for quite a while. I really didn't know I liked you as much as I do until we almost broke up. I don't know why you like me but I really am glad you do. I'm not a good boy but I am trying my best to improve and maybe I will. I told you not toolong ago that I loved you. I don't know why I said that but I did. Maybe I shouldn't

have told you that but it's true. I hope you don't feel bad at me for saying that. It's just that I have liked you so long I had to tell you. I know you think I'm too young to say that and I am but I couldn't help it. Maybe if you weren't so pretty and nice and sweet and so wonderful I wouldn't have told you that. I could write a book about you but it couldn't describe you. I could talk about you and write about you all day but since I've done taken up too much room already I guess that's enough to make you know how much I do like you. I know you don't like me a real lot but I do hope you don't forget about me this summer. I know no matter how old I get or how far away from you I get that I'll never forget you.

With all my love

Jerry

Chyrie,
You are a real nice girl
& I think a whole lot more
of you than you probably
think. I sure wish I
had your intelligence especially
in Algebra.
Good luck in your future
And may God always be
your guide.
